We also find in that paper that John Wheeler Jr. son of Rev. Dr. J. Wheeler has purchased the Burlington, Iowa, Gazette. The suggestion that a steam engine would in few minutes exhaust any ordinary cistern or well and so be useless is all bosh. Who does not know that it is more advantageous to empty the contents of a cistern upon a fire in five minutes and so drown it out in its incipient stages rather than drizzle it along through the space of half an hour. The first would accomplish wonders while the second would be time

But if in the all-wise judgment of our city fathers the bucket brigade or the hook and ladder company or a hand engine that can be run upon the sidewalk or even a few more brass squirtguns are the things for us to have let us have them now. Don't wait another ten or fifteen years. By that time not only the Bunce block about which our friends are so anxiously solicitous will be in ruins, but half our town may be n ashes and many of us be beyond the reach of aid from a brigade of steam fire engines. We fear after all that it is the "penny-wise and pound foolish" policy that has governed us and that the indications point to a continuation of that rule.

After a faithful service of five term Mr. and Mrs. Briggs retired last Saturday from the county clerk's office. All parties will unite in the unanimous verdict that the office was most efficiently and ably filled during the past fifteen fixed in splints. years. Mrs. Briggs was mainly in charge of the duties of the office and great credit is due to her for the thor ongh and careful manner in which all the work has been done. A more honest faithful clerk than Mrs. Briggs it would be hard to find anywhere in the country. Her modest, womanly and dignified presence equal to that of the Judge, always commanded respectful leportment in the court-room. resence at the clerk's desk temered the ardor of the attorneys and nforced politeness during the most exciting trials, and greatly lessened the labor of the Sheriff in preserving order in the court room. In this connection let us say, first, that we think this precaution wise and, though a little late, better late than never. Many of our people have kept their children out of school because of the carelessness of others in allowing children who had been exposed to these diseases to attend. It is believed that this rule will, if rigidly enforced, restore our schools to nearly full quota, and only those who ought will be compelled to stay away. We earnestly urge parents who are keeping their children at home to send them to school unless prohibited by above rule. In that event we are much more anxious that they e kept at home. We hope our physicians will promptly notify members of the board, or Supt. Wean, of all cases have that. For the last ten years this that may come under their notice. In a communication to us the Patentee and Proprietors of the Centennial Cake and Baking Pan ask us to refer them to a party who would make a good agent to sell the above named pan to the people of this and adjoining counties, and as the best means of bringing the matter to the notice of parties in this vicinity who are in want of a business that is light and easy to perform, and one at which there is certainly considerable money to be made, we insert this description:

"It is made of Russia Iron, and will bake a cake a beautiful brown, much nicer and more evenly than it can be baked in the old-fashioned tin cake pan, and being provided with a detachable rim, you can, by simply raising a hook, remove the rim of the pan from the sides of the cake without breaking or injuring it in the least, thus leaving the or injuring it in the least, thus leaving the cake on the bottom of the pan, very conven-ient for icing or frosting, the bottom of the ient for icing or frosting, the bottom of the pan being raised prevents the cake from being burnt on the bottom; the tube in the center can be removed by inserting a common case knife in the slot in the top and turning it half round when it will drop out; there is also a slide on the bottom by which you can close the hole after removing the tube, making a plain bottom pan for baking fruitcake, bread, biscuits, etc., thus practically giving you two pars for the price of one. With all these advantages over all other pans, agents have no trouble at all in selling from ten to twenty-five of them per day. One agent has sold over one thousand of these pans in one county and reports that he has not gone over one half of it yet, and we would advise any one out of employment to write at once to L. E. "A Splendid Medicine."

Mahoning Furnace, Pa., May 13, 1877.

Dr. M. M. Fenner, Fredonia, N. Y.,

Dear sir:—I have tried your Blood and Liver Remedy and Nerve Tonic and find that it is a splendid medicine. My father had been sick a long time. One bottle has helped him more than any medicine he has ever used. My wife, also, has used a bottle with good results.

JACOB SMITH.

Dr. Fenner's Blood and Liver Remedy and Nerve Tonic may well be called "The conquering hero" of the times. It is the medical triumph of the age. Whoever has "the blues" should take it, for it regulates and restores the disordered system that gives rise to them. It al-ways cures Billiousness and Liver Comways cures Billionsness and Liver Com-plaint, Jaundice, Dyspepsia, Constipa-tion, Headaches, Fever and Ague, Spleen Enlargments, Scrofula, Erysipelas, Pim-ples, Blotches, and all skin eruptions and blood disorders; Swelled Limbs and Dropsy; Sleeplessness, Impaired Nerves and Nervous Debility; Restores flesh and strength when the system is running down or going into decline; cures Fe-maie Weakness and Chronic Rheumatism, and relieves Chronic Bronchitis, and all Lung and Throat difficulties. It does these things by striking at the Dr. Fenner's Improved Cough Honey

From all parts of the country reports come of the immense sales and increasing demand for that deservedly popular Sewing Machine. The Old and Reliable "STANDARD," the price of which the proprietors wisely reduced to \$20 including all the attachments, and at once secured for them a popularity among the people, far beyond that attained by any other machine at any price, the consequence of which is, agents are leaving the old high priced machines, and seeking territory for the "STANDARD." Knowing from experience that with the best goods at the lowest price they can outsell all other machines, where the superior quality and low price is made known. This splendid machine combines all the improvements. Is far ahead of all others in beauty and durability of its work, ease of management, light running and certainty of operation, is sensibly made upon sound principles, with positive working parts all steel, and can be safely put down as the very perfection of a serviceable down as the very perfection of a serviceable sewing machine, in every particular, that will outlast any machine, and at a price far down below any other. It is thoroughly warranted for five years. Kept in order free warranted for five years. Kept in order free of charge. And sent to any part of the country for examination by the customer before payment of the bill. We can predict equally as large a demand for them in this section as in others. Families wishing the best machine manufactured should write direct to the Factory, and enterprising persons wishing to seize the chance should apply for so desirable an agency. See advertisement in another part of this paper. Address Standard Machine Co., Cor. Broadway and Clinton Place, New York.

PROF. HARRIS' RADICAL CURE FOR SPERMATTORHEA.

HALL'S VEGETABLE SICILIAN HAIR REnews is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair-dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making the property of only an occasional application necessary. It is recommended and used by eminent medical men, and officially endoused by the State
Assayer of Massachusetts. For sale by all
dealers. (5) 11-15-1y
